GRADE A++**

Department of

COMPUTER ENGINEERING

(SOFTWARE ENGINEERING)

The Department of Computer Engineering (Software Engineering) is dedicated to advancing excellence in software engineering through strong industry integration and innovation-driven education. Guided by its vision of empowering industry with comprehensive software engineering services, the department nurtures graduates who combine technical expertise with ethical responsibility. With a focus on research, project-based and project-centric learning, and live industry collaborations, it equips students with technical, social, and entrepreneurial skills. Its core strength lies in an industry-aligned curriculum that drives innovation and prepares students to shape the future of software engineering.

Vision

Empowering Industry through Comprehensive Software Engineering Services to Achieve Excellence.

Mission

- To produce industry-ready software engineering graduate with a blend of technical expertise and ethical responsibility
- To provide software engineering students with the utmost quality in developing technical, social, innovative, and entrepreneurial skills
- To drive technological innovation and shape the future of software engineering

KEY HIGHLIGHTS

Focus on Sustainable and Ethical Software Development | Advanced Computing Infrastructure |
Interdisciplinary Learning Opportunities | Emerging Program with Modern Relevance |
Expert Faculty & Mentorship | Specialized Software Engineering Focus

INFRASTRUCTURE, INDUSTRY CONNECT & DIFFERENTIATORS
